

Handheld, portable, palm sized, aneroid Sphygmomanometer with centrally positioned air release valve that enables left or right hand operation. The precise fingertip control is ideal for self-measurement with integrated stethoscope available. Available in colours - Slate grey, Saffron, Green and Blue. With multi configurations of different cuffs available to meet your needs.

- › Push-in tube connection at the top of the manometer, for unhindered blood pressure measurement.
- › Latex-free bulb to inflate the cuff.
- › Precision pressure-release valve can be finely regulated by finger pressure without wear and tear.
- › Micro-filter for longer durability.
- › Special hardened copper-beryllium membranes, virtually nonwearing.
- › Membrane can withstand overpressures of up to 600 mm Hg.
- › Linear scale diam. 64 mm from 0 - 300 mm Hg.
- › Maximum error tolerance: +/- 3 mm Hg.
- › In padded nylon zipper bag.
- › Comprehensive range of different cuff sizes with integrated chest pieces.
- › Cuff with practical pull-through strap.
